

Is your **organization** looking for an opportunity to **serve** our community?

# FIRST PICK

Are you interested in taking the passion and skills of your people out of the office to reduce hunger and food waste in our community?

Experience gleaning as a fun team building activity where you will pick 1,000+ pounds of excess fruit for food-insecure San Diegans.

## Benefits:

- Be an environmental champion by supporting hunger relief and food rescue in San Diego.
- Connect your team to nature and our community through a unique experience.
- Gain recognition through our promotion of your company's accomplishments and impact.

It takes a community to ProduceGood and together we have recovered over 1.6 million pounds to provide 4.8 millions servings of fresh fruit and vegetables for food-insecure San Diegans. We would love to host a First Pick event for your company or organization and look forward to promoting your team's impact!

ProduceGood is a nonprofit 501(c)(3) organization that depends upon donations to continue our work.

### When?

The growing season is December through August. Let us know your preferred event date.

### How?

ProduceGood offers this food recovery experience as a service with fees based on company size and number of participants.

### Where?

Based on your location preference and availability, we will schedule with a grower to coordinate your event.

Contact us today to schedule your event:
