

**LET US HELP YOU MEET THE CALIFORNIA
MANDATE TO REDUCE WASTE AS A
CROP CIRCLE COMMUNITY!**

PRODUCEGOOD

PRODUCEGOOD IS A COST-EFFECTIVE SOLUTION TO COMPLY WITH SB 1383 REQUIREMENTS.

ProduceGood works closely with cities to complement their climate action goals for zero-waste and sustainability. ProduceGood's proven model ACCOMMODATES, FACILITATES and ENHANCES your city's food recovery capacity and supports compliance with SB 1383 jurisdictional responsibilities.

OUR SERVICES

- Food recovery and organic waste landfill diversion from residential homes, farms (Tier 2), farmers markets (Tier 2), and grocers (Tier 2)
- Resident outreach & education per SB 1383 requirements
- Curbside hauler services for residential and commercial edible food recovery

HOW IT WORKS

1. City determines the duration of the contract period (fiscal year most common)
2. Contract finalized for total pounds rescued and number of outreach activities
3. ProduceGood conducts services in city within time period
4. Cities are billed monthly or bi-monthly; Activity reports accompany each invoice

ProduceGood insurance coverage includes a liability umbrella. A business license will be obtained for each contracting city.

**COMPLIANCE
WITH CA
REGULATIONS**

**EASE OF
PARTNERSHIP**

**LOW COST &
HIGH ROI**

BENEFICIAL OUTCOMES

- ProduceGood reporting provides GHG emissions mitigated and tons of organic waste diverted
- Increased fresh produce to food insecure city residents (feeding agencies within your jurisdiction will be prioritized for fresh produce donations)
- Community-based, holistic solution to alleviating hunger and reducing organic waste
